

I feel that big buisness is trying to take control of consumers and bend the laws to reflect big buisnesses best intrest and not the consumer. I the consumer do not want to be bothered with telemarketing calls from anyone. If I have a need for a service or product, I want to be the one to call!! As far as having the ability to call past customers, that is wrong, there is a reason that we have terminated a service. You dont get rid of something if you are happy with it. Telemarketing is plain and simple harrasment!!
